

CONSCRIPT TEST WILL BE STRICT

Physical Requirements Are
Set at Very High
Standard

REGULATIONS
ARE OUTLINED

A Thorough Mental Exam-
ination Is in the
Plan

Washington, July 11.—Regulations
outlining physical requirements for the
new national army issued yesterday by
the war department set up right stand-
ards. In general these are the require-
ments:

Height, 5 feet 1 inch to 6 feet 6 inches.
Weight between 118 and 211 pounds.
These standards are not absolute.
Men under 5 feet 4 inches must be of
exceptionally good physique. Variations
in weight above 211 pounds are not dis-
qualifying unless sufficient to constitute
obesity.

The mental test is designed only to
develop whether the man is of sound
understanding.

Examinations of the eyes and ears are
made by charts and whispering tests.
Almost any disease of the lungs or
heart is disqualifying.

The men must have at least four
serviceable molars—two above and two
below opposed.

Before the heart and lung test the con-
scripted man is required to jump straight
up, kick the heels up behind, hop around
the room first on one foot and then on
the other and then make several stand-
ing jumps. After this exercise the ex-
amination is started.

The chest measure should be between
31 and 28½ inches.

The pulse and respiration must be
nearly normal and the skin in good con-
dition.

Chronic rheumatism, old dislocations
and badly united fractures form a dis-
qualification.

Chronic disease of any kind will dis-
qualify the drafted man.

The feet should be in fair condition.
Pronounced flat feet disqualify.

Plans to sift out and exempt from
fighting service workmen vitally need-
ed in feeding, clothing, supplying and
equipping the armies in the field are be-
ing considered. A corps of experts are
at work listing such industries as would
be of aid in maintaining the armies.

From official sources it is learned the
list probably will name farmers as a
general class, miners, men engaged in
shipbuilding, munition workers of all
classes and every branch of industry that
aids directly or indirectly in maintaining
the military forces.

Even for men in these industries ex-
emption is not absolute. It is condition-
al upon the man remaining in the same
line of employment.

On the district boards now being
formed there will be one representative
of labor, industry and agriculture.
Boards of about thirty states are com-
plete.

President Wilson's proclamation draft-
ing the National Guard of every state
into the federal service which was is-
sued Monday indicates that the militia
will be sent to European battlefields as
soon as their officers are satisfied with
the fitness of the units. The units will
be mobilized on July 15, July 25 and
Aug. 5, but it will be the last day be-
fore members will be formally discharged
as National Guardsmen and drafted as
federal soldiers.

REVERSE LAWSON MURDER CONVICTION

Indictments Against Him and Other La-
bor Men Dismissed by Colorado
Supreme Court.

Trinidad, Colo., July 11.—The last
chapter in the dramatic story of the
strike of the operatives of the Colorado
Fuel & Iron company at Ludlow in 1913
has been written. It is a vindication
of John R. Lawson of the Western Fed-
eration of Miners, who was once convict-
ed of murder in connection with a battle
between miners and armed guards on
Oct. 25, 1913.

The supreme court of Colorado Mon-
day reversed the conviction of Lawson
and dismissed indictments against him
and a score of other union men for their
alleged part in the so-called battle of
Ludlow.

PREPAREDNESS BY FARMERS.

Last spring many farmers experienced
difficulty in getting seeds, implements
and fertilizers delivered before planting
time. The car shortage is now worse
than ever. The first of May saw a short-
age of 145,449 cars as compared with a
surplus of 50,000 cars a year ago at this
time. That means a loss of approxi-
mately 200,000 cars in one year.

The only possible way to get fall seeds
and fertilizer delivered to the farmer is
by loading all freight cars to the maxi-
mum. The average car shipment of fer-
tilizers has been 21 tons; the standard
freight car holds 50 tons. That means
that one car could and must do the work
of two this fall.

The only way the dealers and the
manufacturers can assemble orders and
ship them in full carloads is through
having the farmers place their orders
early. The farmer must also haul goods
away from the car promptly upon ar-
rival if each car is to do the full work
demanded of it.

All this may cause inconvenience here
and there but it is not a question of con-
venience; it is a question as to whether
or not it will be possible to move all
fertilizers out to the farms before seed-
ing time. Farmers and dealers must co-
operate in every way possible to help
the railroads and manufacturers accom-
plish the task set before them.

Every pound of fertilizer placed on
the wheat fields this fall means a mate-
rial addition to next year's bread supply.

VENIZELOS' SUCCESS RESENTED IN BERLIN

"He'll Smart for This," Said the Ger-
man Foreign Secre-
tary.

London, July 11.—German statesmen
are smarting under the triumph of Veni-
zelos in Greece. A dispatch from Athens
gives an account of the interview be-
tween Zimmermann, German minister of
foreign affairs, and the Greek charge
d'affaires, who has returned from Ber-
lin.

"This doesn't matter much to Ger-
many," sputtered the enraged Zimmer-
mann when the charge asked for his
passports, "but it will matter much to
Greece. Venizelos will smart for this!"

Pan-German leaders, according to the
Athens dispatch, are urging the govern-
ment to mobilize all the conquered por-
tions of Belgium, Rumania, Serbia and
Russia on the ground that Greece has
been conquered and mobilized by the al-
lies.

The locomotive and three cars had
passed over a loop switch leading to a
single line track when the fourth car,
in the center of the train, jumped the
track and turned over. The man killed
was riding on the platform. He was
caught under the car and his body cut
in half.

William G. George, 43 years old, an
insurance agent, of Winthrop and Bos-
ton, was the man killed in the accident.

ONE KILLED.

And Others Hurt in Accident on Lynn
Narrow Gauge.

Boston, July 11.—One man was killed
and eight injured, none probably fatally,
in the derailment at Winthrop yesterday
of a passenger train on the Boston, Re-
vere Beach and Lynn railroad, a narrow
gauge line, loaded with beach residents
on their way to work in Boston.

An hour after the accident the body
of the victim had not been removed
from beneath the car which toppled over
and was dragged some distance. Several
passengers were cut and bruised and
one was sent to a hospital, although
physicians said he would recover.

MANN'S TIRADE ON SPY CRAZE IS HEARD IN SILENCE

House Coldly Receives Statement That
Administration Has Gone Into
Hysteria Over Alien
Enemies.

Washington, July 11.—Republican
Leader Mann declared in the House yes-
terday that hysteria and "spy craze"
possess the administration. He was
speaking in opposition to a section of
the trading with the enemy bill designed
to permit the president to designate
alien enemies.

"The departments have gone crazy,"
he said. "They see a German spy on
every house-top and street corner. We
have to carry on this war, but that is
no reason why we should be scared to
death."

Mr. Mann's remarks were received in
silence by the House.

CANNOT CARRY LIQUOR EVEN FOR OWN USE

Judge Decides a Man Must Not Take a
Supply Into a Dry State, Even
for His Own Use.

Fargo, N. D., July 11.—Carrying liquor
into dry states, though intended only for
personal consumption and not for sale is
interstate commerce and a violation of
the federal "bone dry" law, according to
an opinion handed down yesterday by
United States Judge Charles F. Amidon,
said to be the first dealing with the sub-
ject.

RICKER'S MARKET REPORTS

Hogs Are Firm, Beef and Veal Are
Lower.

St. Johnsbury, July 11.—At W. A.
Ricker's market hogs are reported firm
and beef and veal lower. Receipts for
the week ending July 10 included:

Poultry—300, 15c.
Lamb—10, 4@8c.
Hogs—475, 13@14c.
Cattle—103, 4@8c.
Calves—1,090, 4@11c.
Milk cows—45c, \$70@8100.

HOG PRICES FIRM.

Calves Also Well Sustained at Brighton
Market.

Brighton, Mass., July 11.—At the
Brighton stockyards yesterday morning
hogs and calves were well sustained, but
beef stock of all kinds was easy, and
sold slowly, with average receipts.

Hall & Lowell had the best pair of
steers on the market, said by the old-
timers to be the best offered for some
time. These were held at 13½¢. Aver-
age tops were quotable at 10@10½¢,
with good cattle at 8@9c and light cattle
at 7@7½¢.

Good beef cows were a little easier,
and shippers found it difficult to get over
8@8½¢, though an occasional fancy cow
was held above that figure. Good cows
bought 7@7½¢, ordinary cows 5½@
6½¢, and canners cows 5@5½¢.

Best bulls were quotable at 7½@8½¢,
though offerings were moderate, with
average bulls at 6@7c and bologna bulls
at 5½@6c.

Fancy calves brought 14@14½¢ in
small lots, bunch lots selling at 13@14c,
fair lots at 10@12c, and grassers and
drinkers at 9@10c.

Few sheep and lambs were offered, the
best lambs bringing 13c and upward, ac-
cording to quality.

Hogs were unchanged and fairly firm,
best lots selling as last week, at 16½@
18½¢, with rough lots at 15½@16½¢.
Several hogs were in the market and
sold at 6@8c, prices being unusually high
for this class of stock.

The milk cow trade now is conveni-
ently located in the new cow barn, this be-
ing the first week of use. The building
is of cement and steel construction, ab-
solutely fireproof, with metal stanchions
and accommodations for 400 cows. Deal-
ers say that the new barn is a great
success as a show barn, being light and
airy and cool in hot weather. More room
is provided for the individual cows than
in the old barn, and all the corridors are
now spacious and convenient. Sales of
milk cows were made yesterday at
\$40 upward, an occasional fancy milker
selling as high as \$125.

Dressed hogs are still unchanged in
price, the packers quoting 20@20½¢, the
same as for several weeks.
